

Club Diaries was conceived to eliminate a universal problem for the golfer ... a lack of consistent and easy to attain information from all clubs - not just theirs. Golfers want to know ...

- Where they can play
- What's on &
- Who won

Our goal is to provide this information without cost - so golfers, golf clubs and the much needed club sponsor can benefit from the exposure this creates.

Results - for too long results have been erratic at best - with many problems existing for golfers;

- The cost of ringing in to check results - this costs both the club & golfer time and money.
- Club result sheets often go missing.
- The cost of buying papers to view what are basic results.
- And the biggest clanger of all is clubs hiding results behind a club member restricted log-in. This ingenious idea only succeeds in limiting club exposure to golfers outside the club.

We aim to address these facets for all golfers. Our primary goal is the marketing of the club and its sponsors to the golfing community as a whole. As a result participating clubs are able to improve their bottom line.

Members keen on their club participating can [contact us](#) and your response will be followed

up.
